Education

JSS Academy of Technical Education, Noida

BTech in Computer Science and Engineering (AI & ML Specialization)

Sept 2022 – Present

CGPA: 8.26 / 10 (Till 7th Sem)

Technical Skills

- **Languages:** C, C++, JavaScript, HTML, CSS
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Tailwind CSS, Bootstrap, Socket.io, Passport.js
- **Databases & Tools:** MongoDB, SQL, Redis, Git, GitHub, Postman, VS Code, Vercel, Render
- **Concepts:** REST APIs, JWT Auth, Role-Based Access Control, Real-Time Systems, OOP, DBMS
- Solved 350+ DSA problems on LeetCode with a 200-day active problem-solving streak. ([LeetCode](#))

Experience

Steep Rise Infotech Pvt. Ltd. – MERN Stack Developer Intern ([Certificate](#))

July – Sep 2025

- Understood feature requirements from senior developers and broke down tasks into development milestones for the admin dashboard.
- Built and deployed a responsive React admin dashboard with dynamic components, streamlining user management workflows and reducing manual overhead.
- Implemented secure authentication using JWT and bcrypt, enforcing role-based access control and protected routes for secure navigation.
- Integrated Express.js RESTful APIs with MongoDB for efficient CRUD operations; monitored API reliability using Postman to ensure consistent uptime.

Projects

Convoke – AI-Powered Collaborative IDE

Aug – Sep 2025 [Deployed Link](#)

- Architected a real-time collaborative IDE using MERN, Socket.io, and Redis (Upstash) for low-latency state synchronization and multi-user code syncing across concurrent sessions.
- Implemented WebContainer API to provide a secure, in-browser Node.js runtime for dependency installation and live previews, eliminating local environment setup.
- Engineered an interactive file system with syntax highlighting (Highlight.js); monitored real-time session health via Redis Pub/Sub to detect and recover from connection failures.
- Integrated Google OAuth 2.0 and JWT for secure SSO; automated deployment pipeline via Vercel for consistent, zero-downtime production releases.
- **Tech Stack:** MongoDB, Express.js, React.js, Node.js, Gemini API, Socket.io, Redis, WebContainers, Passport.js

AI-Powered Interview Prep — MERN + Gemini API

Jan – Feb 2025 [Deployed Link](#)

- Developed a full-stack AI platform using the MERN stack and Gemini API to generate role-specific interview questions and AI-driven explanations, integrating AI solutions to optimize user workflow.
- Built modular React components for navigation and bookmarking, backed by optimized RESTful APIs and JWT authentication; implemented data-driven analysis of question patterns to improve content relevance.
- **Tech Stack:** MongoDB, Express.js, React.js, Node.js, Gemini API, Tailwind CSS, JWT

WanderLust – Property Listing Platform

June – July 2024 [Deployed Link](#)

- Engineered a MERN property marketplace featuring dynamic CRUD operations, search/filtering logic, and a review/rating system, improving user engagement through data-driven UI decisions.
- Implemented role-based authorization and Server-Side Rendering (EJS) to optimize page load times and ensure secure property management; deployed to production on Vercel with automated build workflows.
- **Tech Stack:** Node.js, Express.js, MongoDB, Mongoose, EJS, Bootstrap, html, CSS, JavaScript

Certifications

- Introduction to Frontend Development – **Simplilearn**, June 2025 ([Link](#))
- Data Analytics Job Simulation – **Deloitte**, June 2025 ([Link](#))
- Problem Solving (Intermediate) – **HackerRank** ([Link](#))
- Oracle Certified AI Foundations Associate – **Oracle** ([Link](#))

Activities & Achievements

- **President, SPADE Society** – Led a 100+ member team, organizing 5+ college events with 300+ participants; managed end-to-end execution including planning, stakeholder coordination, and cross-functional team management.
- **Member, Youth for a Cause (NGO)** – Participated in community outreach programs and NGO visits.
- **Basketball** – Competed at regional school tournaments and AKTU zonal college championships.
